

Estimation

An estimate is your best guess

You estimate when
there is too many of
something to count

Like.....

A gaggle of geese

Stars in the Sky

Or...

Shells on the sand

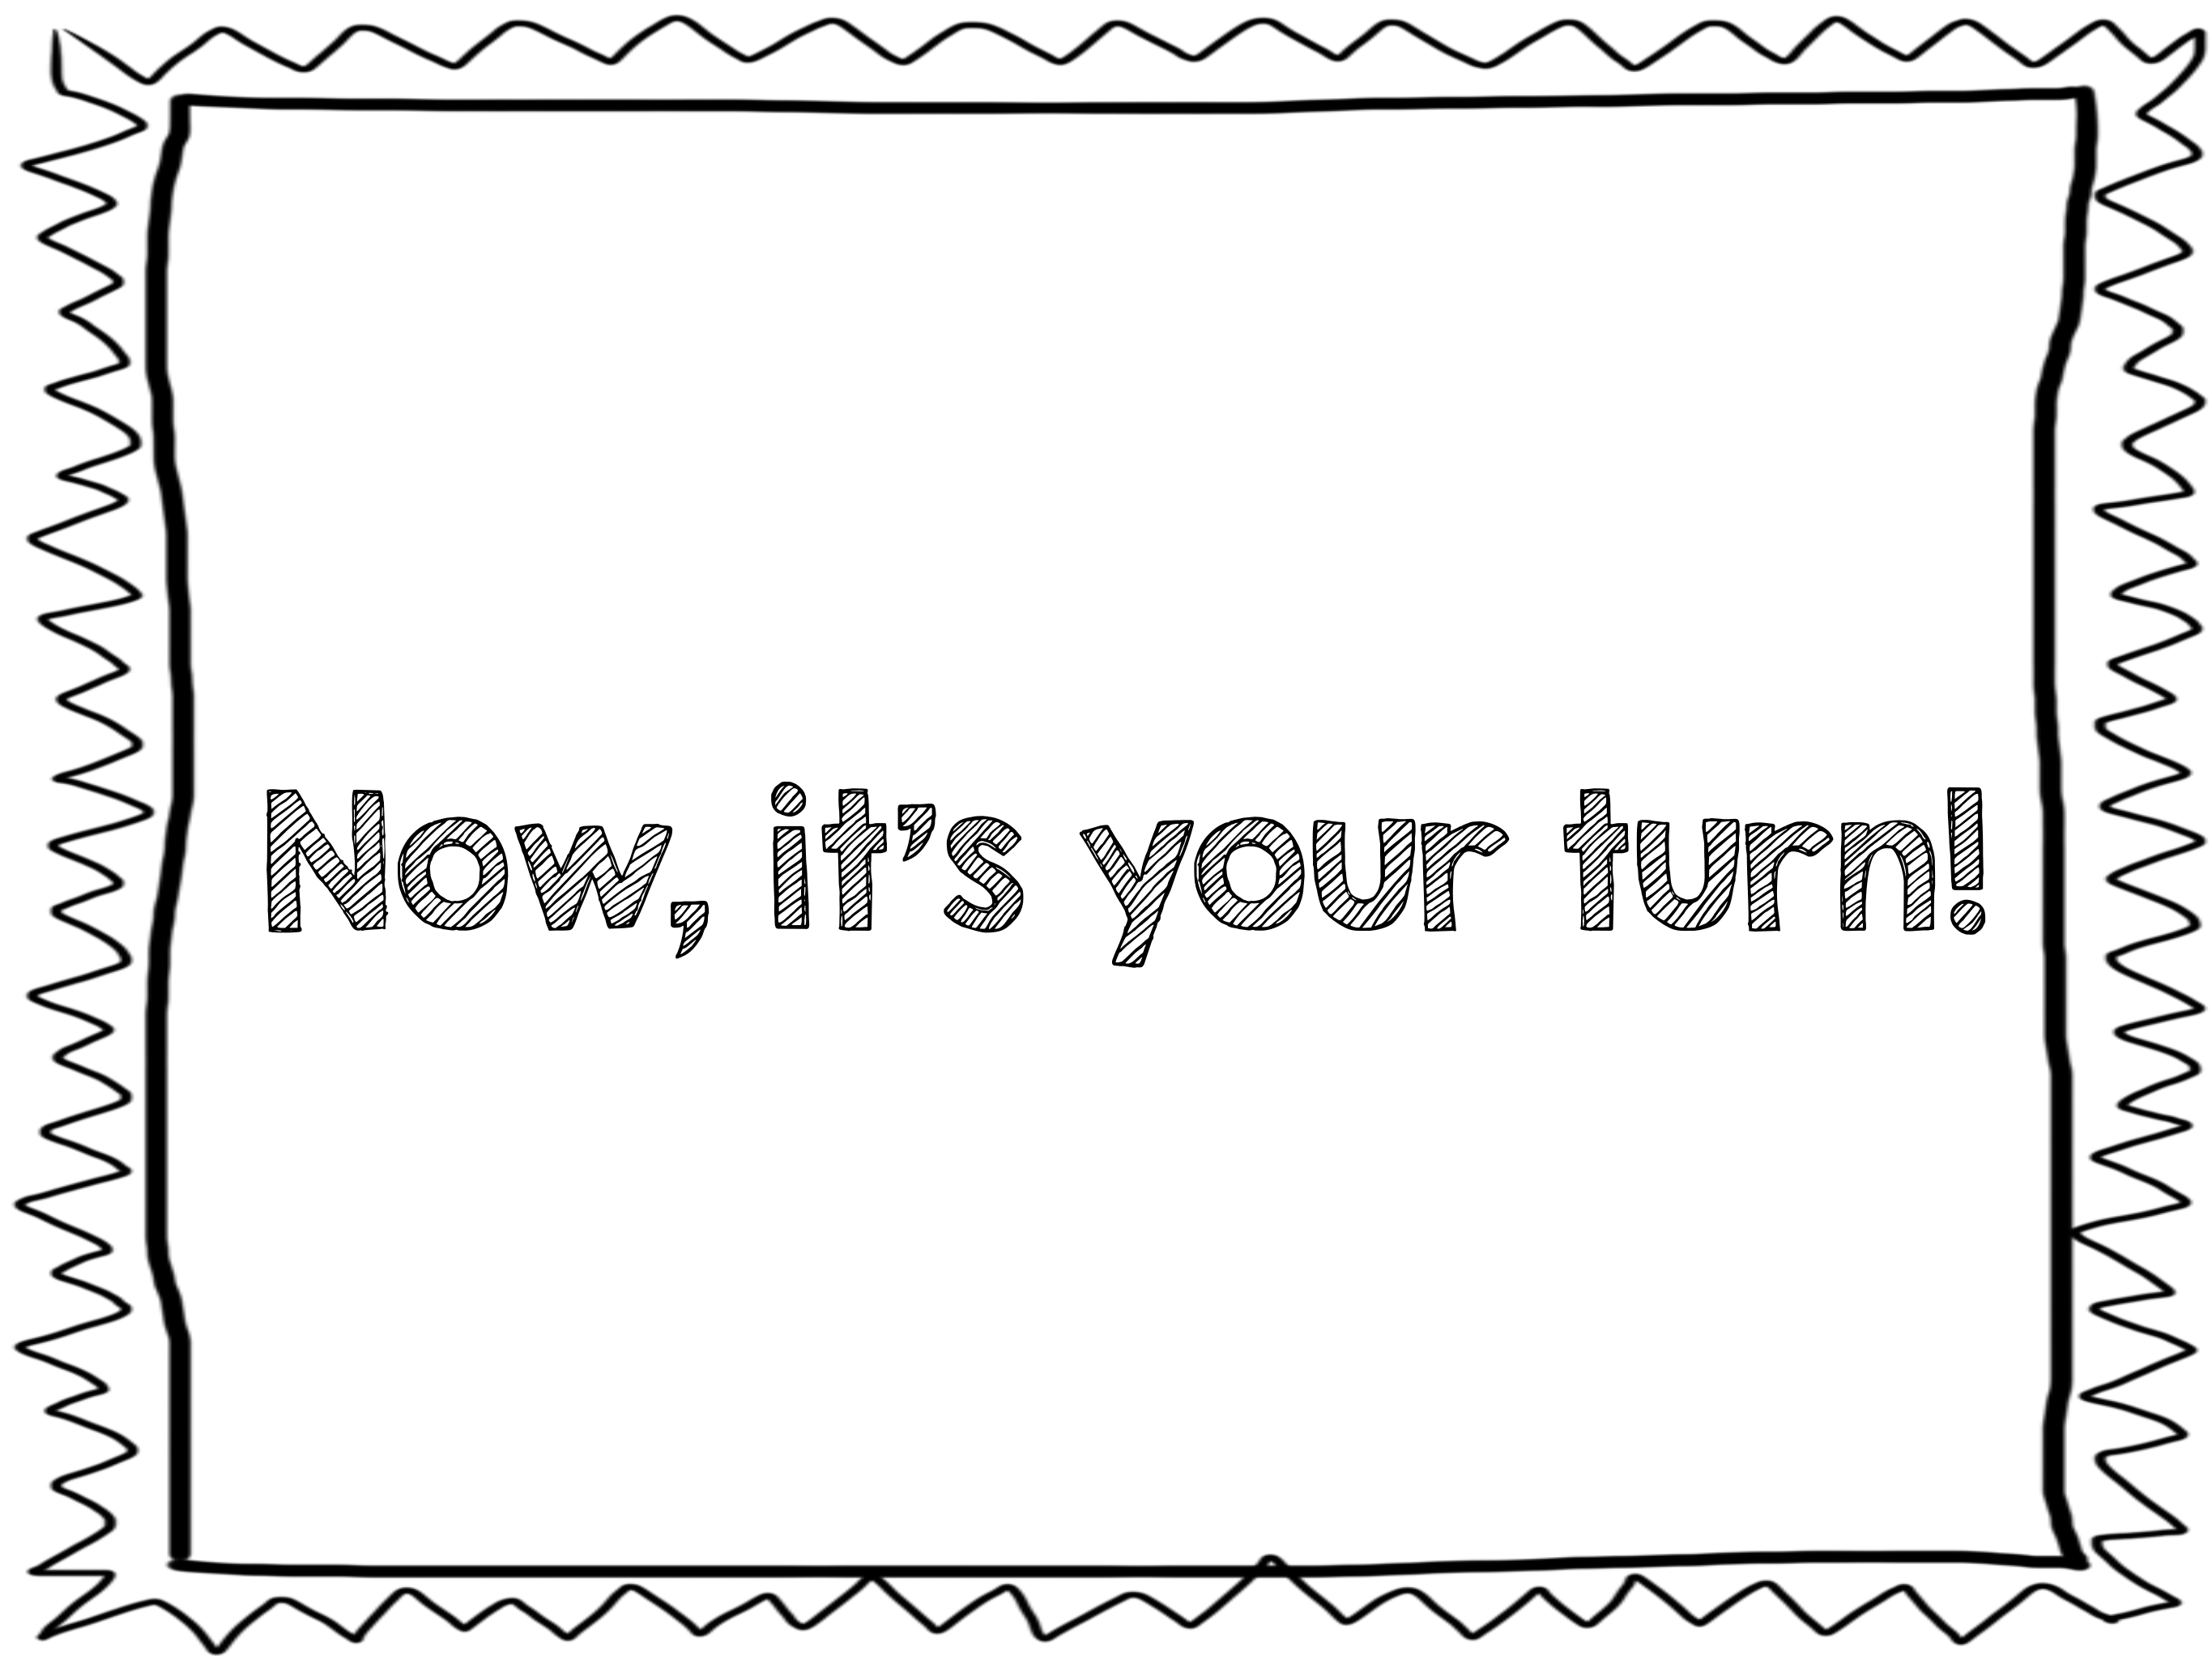

There's too many to
count, so it can't be
exact

Let's watch a video!

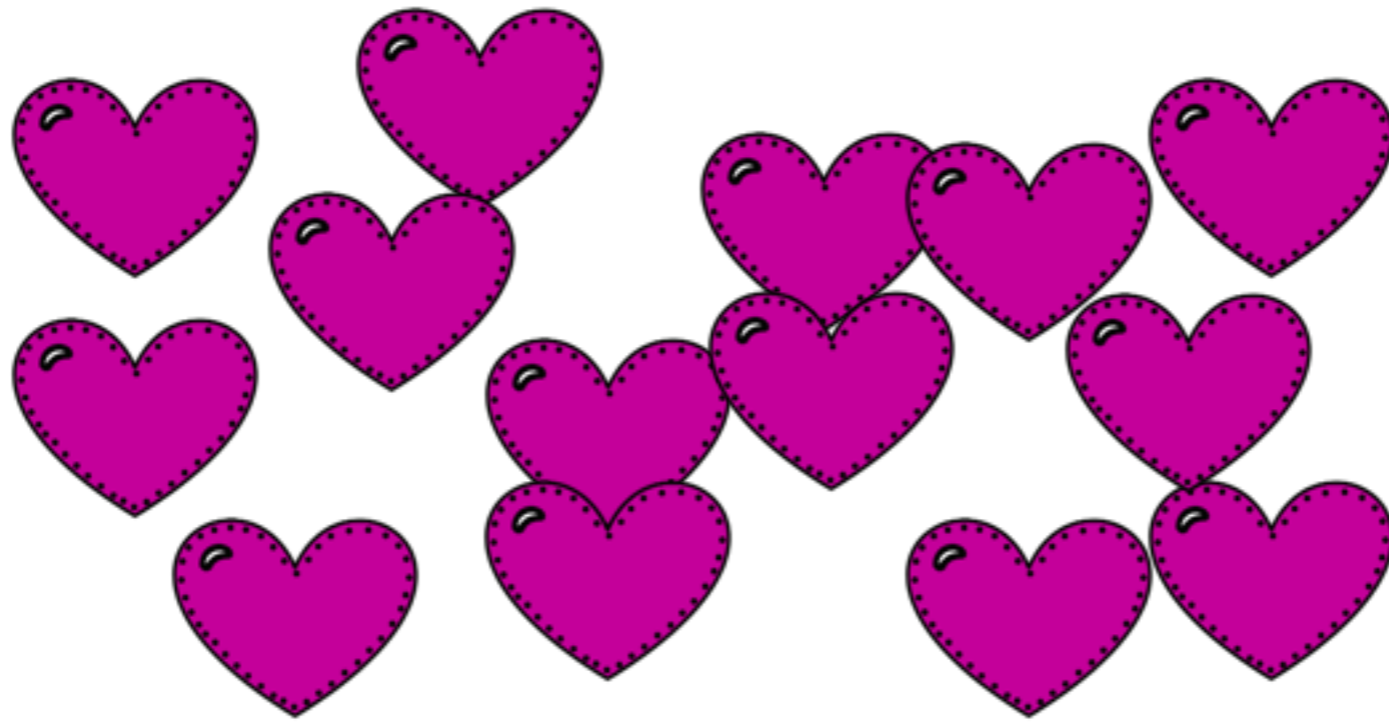

<https://www.youtube.com/watch?v=IpVLe0rHhzw>

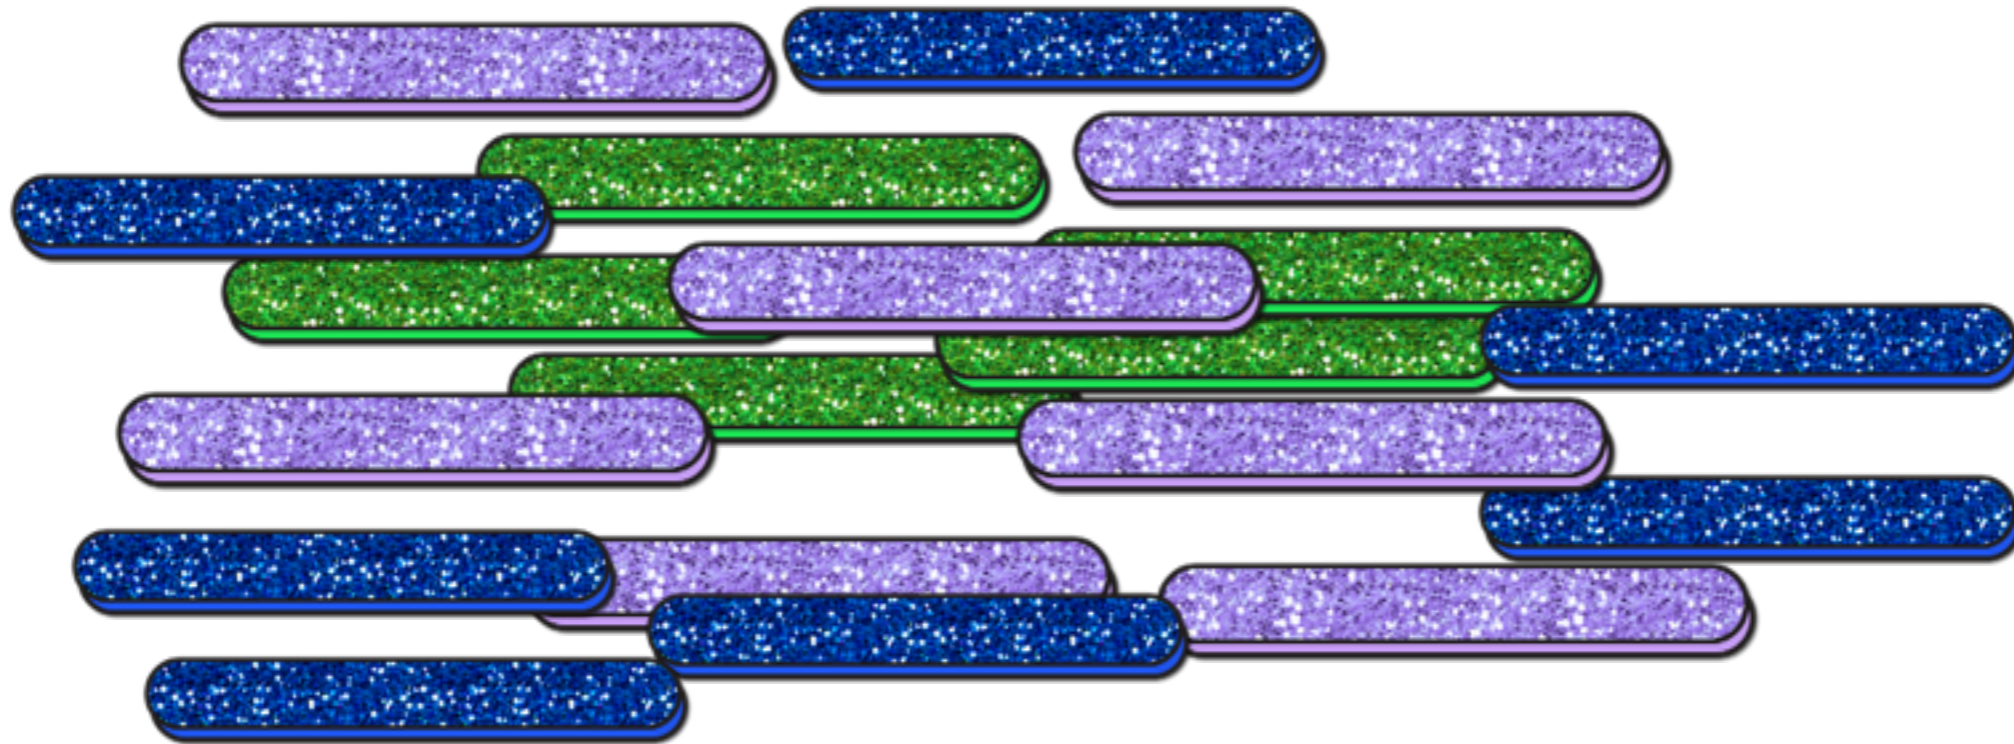

Now, it's your turn!

Which estimate is closer?

100 or 15?

Which estimate is closer?

20 or 85?

How many bears
are in this jar?

This is our Reference Jar

There are 10 bears in
the jar.

How many bears are in this jar?

Hint: Look at the first jar to help you decide if there is more than 10 or less than 10

0-10

11-20

20 +

0-10	11-20	20 +
